USER MANUAL

- **Turn on the beamer**

- **Connect the clickshare dongle to the notebook**

  The dongle is on top of the black case near the window, another dongle is in the case.

  - insert the clickshare dongle into the notebook's USB or USB-C port and wait until the circle on the dongle stops flashing,

  This process takes a few seconds, please be patient!

  - any screen messages that may appear, especially installation prompts, can be ignored, nothing needs to be installed,

  - as soon as the circle on the dongle lights up continuously: pressing the button, the image is transmitted to the projector.

  At the end of the dongle there is an adapter from USB-C to USB, which can be plugged in or removed as required.

  IMPORTANT!
  At the end of the presentation, please put back the dongle and switch off the projector.
